Level 1 Principles of Fire Awareness (QCF) Qualification

"Most fires are preventable. Those responsible for workplaces and other buildings to which the public have access can avoid them by taking responsibility for and adopting the right behaviours and procedures."
HSE

Our informative Principles of Fire Awareness course provides an understanding of fire awareness hazards and associated risks; how fires start and propagate within buildings together with the tools to develop and implement emergency evacuation arrangements to make your workplace a safer environment.

Why Attend This Course?

There are nearly twenty thousand commercial fires in the UK each year, most of which are preventable by following important duties that should be taken seriously by both employer, employee and the designated Fire Marshall. It is recommended that professional fire safety businesses are used to help deliver the necessary requirements. Delivered by one of our experienced trainers who have, or currently are, serving members of the Fire Fighting Services ensures that our course is delivered with knowledge and experience.

What Will I Learn?

- ✓ Understand fire hazards in the workplace
- ✓ Principles of fire risk control
- ✓ Managing an emergency
- ✓ Understanding fire extinguishers and other portable firefighting equipment
- ✓ The duties and responsibilities of employers and employees
- ✓ Roles and responsibilities

Where Can I Learn?

This half day course can be held at your own premises on a date to suit your needs for a maximum of 12 learners per course or you can attend one of our open courses detailed on our website. No previous knowledge is needed to attend this course and all course material and equipment will be provided.

Assessment

A continuous assessment by our experienced trainer ensures all learners feel confident in achieving their Office of Qualifications and Examinations Regulation approved qualification and certificate, valid for three years.
